

Welcome to the thirteenth quarterly edition of the McLaughlin & Harvey Newsletter. As a major building and civil engineering contractor operating throughout Great Britain and Ireland, we wish to inform you of our current business activities. We believe our business is all about relationships. We want to continue building our relationship with you by keeping you informed of what we are up to. We also welcome your feedback and comments.

Please keep in contact with us through [LinkedIn](#) and [Twitter](#), and view us on [YouTube](#).

Subcontractor Meet and Greet a success!

Thank you to everyone who attended our Subcontractor Meet and Greet for the proposed Liverpool Cruise Terminal on Tuesday 13 November 2018.

The event provided an effective platform for subcontractors and suppliers to meet some of the key individuals of the project team.

The proposed terminal development includes dismantling the redundant and derelict jetty and construction of the new terminal on a new jetty in the River Mersey. The scheme also includes new public open space, hard and soft landscaping and associated coach and car pick-up and drop-off facilities.

The new cruise terminal is 10,000sqm in size and will be constructed on two floors; the ground floor being the Baggage Hall and entrance lobby, and the first floor will include the passenger lounge, check-in area and cafe. The new terminal will be connected by a pedestrian and vehicular link-span bridge to the existing Cruise ship landing stage.
